

NCR NeighborhoodPOS

Your Complete Restaurant Solution

- Complete Global Solution
- Full-featured Quick Service
- Table Service Flexibility
- Enhanced Kitchen Support
- Superior Reporting and Data Management

All the Technology you Need

A complete solution for restaurant owners, NCR NeighborhoodPOS includes hardware, software and services. NCR NeighborhoodPOS ensures all of your technology bases are covered today, and is designed to protect your investment by adapting with your changing business needs tomorrow. NeighborhoodPOS operates in a multitude of languages, supports a wide range of configurations, and provides the ability to capture restaurant and general retail transactions in the same system!

Flexible Technology for Fast Food

For the quick service restaurant, NCR NeighborhoodPOS provides speed of service through a flexible Touch Screen cashier interface at the counter. Drive-thru is supported with single or multiple terminal operations, including order confirmation board support. Pricing and promotion flexibility are provided via combination coupon and smart multi-item discounts capabilities.

Superior Dining Capabilities

NCR NeighborhoodPOS also supports table service and fine dining environments with either soft- or hard-check options, flexible check number assignment and robust

check-splitting functionality. Order entry prompting ensures order-to-kitchen accuracy, providing your customers a pleasurable dining experience that will keep them coming back.

Help for the Kitchen

NCR NeighborhoodPOS supports a wide variety of kitchen layouts, including remote printer support, and an enhanced Kitchen Display System (KDS). The enhanced KDS provides multiple configuration options, including multi-language support and control over screens and routing options.

NCR NeighborhoodPOS
